

Table 2. 2001 SO₂, CO₂, NO_x Emissions and Heat Input Trends Broken Down by Phase

Phase	# of units	SO₂ (tons)	CO₂ (tons)	NO_x (tons)
<i>Phase I, Table 1</i>	263	3,612,943	505,455,772	1,203,462
<i>Opt-In Units</i>	11	58,739	3,989,016	13,219
<i>Phase II</i>	2364*	6,962,395	1,884,412,521	3,483,193
Totals	2638	10,634,077	2,393,857,309	4,699,874

* Total # of units with reported emissions

Table 2 shows the 2001 SO₂, CO₂, NO_x, emissions and heat input by three categories of units: 1) those participate beginning in 1995 (Phase I, table 1 units); 2) those units that were not affected by the participate (opt-in) ; and 3) those units required to comply starting in 2000 (Phase II units).

Heat Input (mmBtu)
4,944,540,489
39,780,257
20,239,557,992
25,223,878,738
